Ticket Types

MS811 Locate Request		
Type: Normal	Processed: 06/19/23 3:26 PM	Addition: NO
Ticket #: 23061915260014	Locate By: 06/22/23 3:26 PM	Correction: NO
	Expires: 07/03/23 3:26 PM	Damage: NO
	Update From: 6/27/2023 3:26 PM	Remark: NO
Previous Ticket #:	Update To: 6/28/2023 3:26 PM	Update: NO

Ticket types are used by the MS811 system to automatically calculate date/time fields in accordance with MS Excavation Law.

Normal - Locate request submitted no less than 3 and not more than 10 working days prior to excavation.	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	3 working days
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days

Short Notice - Excavator has requested that lines be marked sooner than 3 working days. This is only a request and is not binding or mandated by law. The date/time the excavator would like to have lines located by will be listed in the Proposed Work Date field.	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	3 working days
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days

Impending Emergency - A locate request where the circumstances are potentially dangerous to life, health, property, or the loss of customer services, which would likely develop into an emergency if excavation is not initiated sooner than permitted under the standard notification requirements. Any misrepresentation of an impending emergency excavation is a violation of the law.	
Notices provided between 8:00 pm and 11:59 am	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	Excavation shall commence no less than 12 hours from notice given
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days
Notices provided between 12:00 pm and 7:59 pm	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	Excavation shall commence no sooner than 8:00 am the next calendar day
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days

Emergency - A locate request involving imminent danger to life, health, or property or a customer service outage. Any misrepresentation of an emergency excavation is a violation of the law.	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	3 working days
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days
Notes	
<ul style="list-style-type: none"> Most utility owners/operators have internal policies to locate emergency tickets sooner than required by law Law does not require a response time less than 3 working days The date/time the work is to begin will be listed in the Proposed Work Date field 	

Short Notice - Excavator has requested that lines be marked sooner than 3 working days. This is only a request and is not binding or mandated by law.	
<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	3 working days
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days

Cancel Req - The excavator has reported that the excavation previously reported will no longer be taking place and the underground utilities no longer need to be marked.

<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	n/a
Update From/To	n/a
Expires	Immediately

Design - A Locate Request submitted by a professional service in preparation for bidding, preconstruction engineering, or other advance planning efforts that do not involve excavation.

<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	7 working days
Update From/To	No less than 3 working days and no more than 4 working days prior to ticket expiration
Expires	14 calendar days

The member shall respond by one of the following methods within 7 working days:

- a) Marking their infrastructure
- b) Provide the excavator with the best available description of infrastructure in the area which may include drawings or other records maintained by the member
- c) Allow the excavator or any other authorized person to inspect or copy the drawings or other records for all infrastructure in the area

No Response - The utility owners/operators notified have failed to respond to the previous locate request within 3 working days.

<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	2 hours
Update From/To	Same as the previous locate request
Expires	Same as the previous locate request

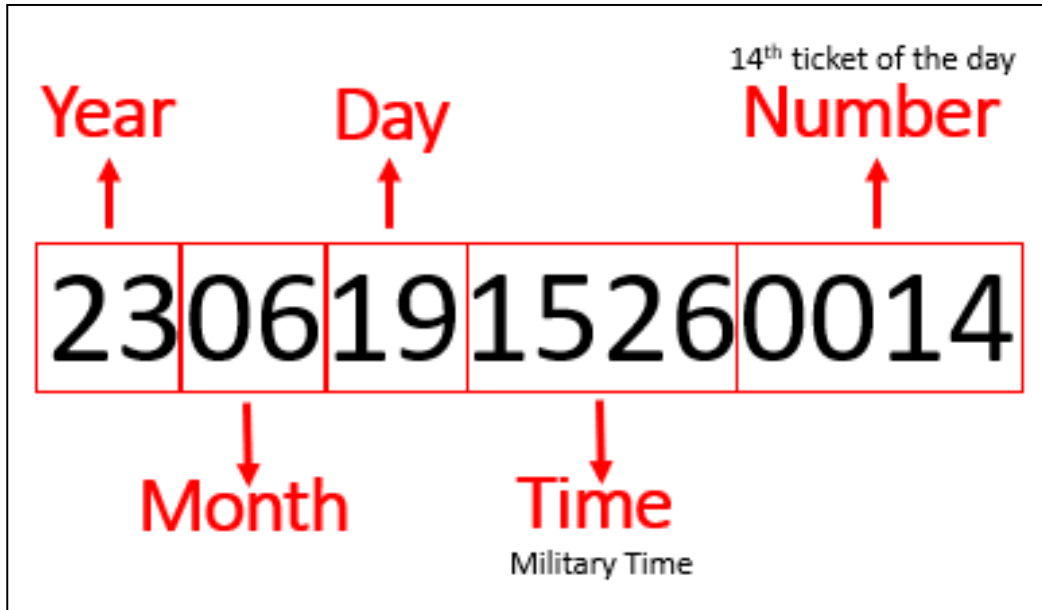

Unmarked - The utility owners/operators notified have responded to the previous locate request; however, the excavator has reported that there are still unmarked utilities within the reported excavation site that may belong to the utility owner or operator. This could be due to the locator's failure to mark part of the reported excavation site or due to the excavator finding an unmarked utility (active or abandoned) while excavating.

<u>Date/Time Field</u>	<u>Requirements</u>
Locate By	2 hours
Update From/To	Same as the previous locate request
Expires	Same as the previous locate request

Ticket

MS811 Locate Request		
Type: Normal	Processed: 06/19/23 3:26 PM	Addition: NO

Response Status

Response Status As Of Monday, June 19, 2023 3:31 PM	
<i>As of January 1st, 2021, Mississippi Excavation Law requires that utility owners/operators report through the MS811 Positive Response Information System (PRIS) the status of the work performed. MS811 is not responsible for any damage, loss or liability that may arise due to the use or misuse of ticket response info.</i>	
Name/Code/Facilities	Responses

The Positive Response Information System (PRIS) is an online automated information system operated and maintained by MS811, which allows excavators, locators, facility owners or operators, and other affected parties to enter and/or determine the status of a locate request. The member is required by law to submit locate status information through PRIS by the required locate by date/time.

This section of the ticket contains positive response information submitted for the ticket. This information is displayed on response status emails sent to the excavator and when viewing the ticket in the web portal. This information is not displayed on the ticket transmitted to member utility companies or ticket confirmations sent to excavators.

Name/Code/Facilities

Response Status As Of Monday, June 19, 2023 3:31 PM	
<i>As of January 1st, 2021, Mississippi Excavation Law requires that utility owners/operators report through the MS811 Positive Response Information System (PRIS) the status of the work performed. Multiple responses can be submitted for a single member.

MS 811 INC TEST – MS2222 MS2222 Water, Electric, Fiber	<ul style="list-style-type: none"> June 27, 2023 1:20 PM Located – Facilities marked Comments: Electric, fiber & water located. June 27, 2023 1:19 PM Locate Delayed – Locate Delayed Comments: Must excavate to locate water lines. June 22, 2023 3:33 PM Overdue – Utility did not submit a response by the required date/time Comments: Response was not submitted by the locate by date/time.
--	---

Member Responses:

- **Located – Facilities marked**
 - The member utility has marked their facilities.
- **Clear – No conflict**
 - The member utility does not have underground lines in the excavation area.
 - To prevent delays in work or possible infrastructure damage, member utilities should always **confirm** that they do not have underground lines in the excavation area before submitting a "Clear" response.
- **On-Site Meeting Request – Utility is requesting to be on site during excavation**
 - A representative has requested to be on-site during excavation.
 - The operator may request to be present at the site upon commencement of the excavation, so long as the operator complies within 3 working days.
 - MS811 will not set up meeting requests. It is the members' responsibility to contact the excavator.
 - It is recommended that a callback # be added to the comments in case the excavator needs to reach the locator after initial contact.
- **Locate Delayed – Locate Delayed**
 - This response action should be used when a member can only locate their utilities by excavation. A delay for any other reason is not in compliance with the law.
 - It is recommended that a reason for the delay and a callback number be added to the comments.
 - E.g.: "Utility can only be located by excavation".
 - Once the infrastructure has been located, the response status must be changed to "**Located**".
- **Located To Meter Only - Private property beyond meter not located**
 - Most utility companies will only mark up to their meter or the property line if there is no meter. The landowner will be responsible for locating any underground utilities beyond that point.

MS811 System Responses:

- **Overdue – Utility did not submit a response by the required date/time**
 - A response was not submitted by the date/time required by law and the member is not in compliance with MS Excavation Law.
 - A response must be submitted no later than 1 hour after the Locate By date/time on the locate request ticket or the MS811 system will automatically post an "**Overdue**" response status.
- **No Response – Utility did not submit a response before the ticket expiration**
 - A response was not submitted before the ticket expired and the member is not in compliance with MS Excavation Law.

- If a response is not submitted before the Expires date/time on the locate request ticket the MS811 system will automatically post a “**No Response**” status within the hour following the expiration of the locate ticket.
- **Non-Participant – Company is not currently participating in Positive Response**
 - The member utility is not currently participating in the Positive Response program and is not in compliance with MS Excavation Law.
 - MS Excavation Law requires that all member utility companies submit response information to the MS811 Positive Response Information System.
 - The MS811 system will automatically post a “**Non-Participant**” response soon as a ticket is created for non-participating member utilities.

Dispatch codes for members notified

Name of members notified

Was the member manually added to the ticket?

- If **Added** is **'False'** the member is being notified because their service area intersected with the excavation area drawn on the map.
- If **Added** is **'True'** the member was not automatically selected by the system. It was manually added to the ticket because the caller indicated that the company has or may have underground utilities on or near the excavation site.
